ENTRY BAGS

RIT ENTRY BAG

- Designed to hold a one hour SCBA bottle, regulator, buddy breathing hoses, and a face mask
- Standard 6ft hoses and extended hoses can be accommodated
- Break away shoulder straps and grab handle allow for easy handling
- All components held inside the bag to decrease entanglement and dropping

FDTN BAG

- This bag was designed and developed by the Fire Department Training Network to carry all necessary items needed for providing a backup air supply for an injured firefighter
- Well-organized primary compartment that stores the air-cylinder, Universal Air Connection Wand, and the Regulator
- Separate section for the SCBA face mask
- Drag strap and large D-carabiner on the outside that can be converted into a waist strap for the downed firefighter
- Comes with a break away shoulder/carry strap

ENTRY BAGS OPTIONS AND DATA

- Constructed with 1000 Denier Nylon with a poly coated vinyl on the bottom to prevent tears and abrasions.
- 24" x 7" internal plastic base board keeps bag upright while protecting the integrity of the bag's components.
